## NATION'S COAL PRICES FIXED

KENTUCKY'S BLACK DIAMONDS TO BRING FROM \$1.05 TO \$2.05

## LIBERAL TO OPERATORS

Prices Under \$3.00 Agreement Yet Far Above Any of Recent Times.

Washington, Aug. 21.—Bituminous coal prices were fixed by President Wilson tonight for every mine in the United States. The next step in coal control, a White House announcement said, will be to fix the prices to be charged by middlemen and retailers.

Prices were set on cost of production, estimates furnished by the Federal Trade Commission after months of exhaustive investigation. The country is divided into twenty-nine districts and every producer in a district will market his output at the same price.

The President named no agency to carry out the provisions of his order, but is expected to appoint soon a coal administrator who will be given entire control of the coal industry. Rumor tonight named President H. A. Garfield, of Williams College, as the man. Mr. Garfield now heads a committee named by the President to fix a Government price for wheat. His work will end before September 1, when the Wheat Committee probably will be dissolved.

### Average Close To \$2.

The prices named for run of mine coal in the large producing districts average slightly more than \$2. In a few districts they are below that figure and in the Western territory they are higher. Washington State is highest with \$3.25.

The President's statement said: "The following scale of prices is prescribed for bituminous coal at the mine in the several coal producing districts. It is provisional only. It is subject to reconsideration when the whole method of administering the fuel supplies of the country shall have been satisfactorily organized and put into operation. Subsequent measures will have as their object a fair and equitable control of the distribution of the supply and of the prices not only at the mines, but also in the hands of the middlemen and retailers.

"The prices provisionally fixed here are fixed by me under the provisions of the recent act of Congress regarding administering the food supply of the country, which also conferred upon the Executive control of the fuel supply. They are based upon the actual cost of production and are deemed to be not only fair and just, but liberal as well. Under them the industry should nowhere lack stimulation."

### Schedule of Prices.

Some of the prices of a. b. min. are as follows:

Run Prep'd. Slack or of Mine. Sizes. Screen's			
Kentucky	1.95	2.20	1.70
Kentucky (Jellico)	2.40	2.65	2.15
Tennessee (East-ern)	2.30	2.55	2.05
Tennessee (Jellico)	2.40	2.65	2.15
Indiana	1.95	2.20	1.70
Illinois	1.95	2.20	1.70
Illinois (third vein)	2.40	2.65	2.15

### Prices Under \$3 Minimum.

The prices fixed range from 20 to 35 per cent under the maximum price of \$3, fixed by Government officials and operators at a conference here more than a month ago. The \$3 price agreement, however, did not hold, as many operators refused to abide by it after Secretary Baker, as president of the Council of National Defense, repudiated it as too high. Prices recently have ranged far above the \$3 limit.

The fixing of prices was the President's second step in the direction of coal control and was taken under authority given the executive in an amendment to the food control bill. The first was taken yesterday when the President named Robert S. Lovett as director of transportation, and approved an order issued by Mr. Lovett directing that coal shipments to the Northwest be given preference over other goods.

Tonight's action was taken as an

indication that the President has abandoned the plan originally considered which called for Government requisitioning of the output of all mines, with the Government selling the product to the public. This procedure was strongly recommended by the Federal Trade Commission and up until tonight it had been believed it would be the program adopted.

### No Pool Arrangement.

The President's order apparently makes no provision for a pooling arrangement, which had been suggested, under which mines would have been paid for their output on a basis of cost of production plus a percentage of profit. Under this plan all coal in a district would have been sold at the same rate, but the mines would have received compensation based solely on costs.

The plan adopted, officials admitted tonight, will work hardships on a great many of the smaller mines and may force some to close down. This, it is claimed, however, will not reduce the total coal output as miners released from the small mines will go to the large ones, and more cars can be supplied to mines of large producing capacity.

Officials who believe the President will name a one-man control of coal point to his desire that extraordinary powers given the Government for war purposes be placed in organizations that can be dispensed with after the war is over. Many are of the opinion he will create an organization to handle coal similar to the Food Administration and that existing agencies will be required to work in with the temporary agency.

Operators from all the bituminous coal producing States met here today and organized the National Coal Operators' Association, to promote co-operative effort on the part of coal producers and co-operate with public officials, especially during the present war emergency. Delegates were present from State and other sectional organizations, representing some seven hundred operators, whose annual production aggregates two million tons.

An Executive Committee to direct the activities of the association was named as follows:

H. M. Taylor, for Missouri; Rembrandt Peale, Central Pennsylvania; W. K. Field, Western Pennsylvania; Hlywell J. Davis, Kentucky; Dr. F. C. Hinnold, Illinois; A. M. Ogle, Indiana; George H. Barker, Ohio; J. J. Tierney and J. H. Wheelright, West Virginia.

### CANADIANS BIG GAIN.

London, Aug. 21.—Two thousand yards of German positions west and northwest of Lens have been captured by the Canadian forces in a drive started early today, says the British official communication issued this evening. Heavy fighting is still going on in the region of the coal city with the Canadians having the upper hand. Three counter attacks by the Germans were repulsed.

The communication follows: "Early this morning we attacked the line of German trenches which skirts Lens to the west and northwest and captured the enemy's positions on a front of 2,000 yards.

"Heavy fighting has taken place and still continues.

"At midday two strong counter attacks northwest of Lens were beaten off by our troops and a third counter attack south of the town was broken up by our artillery.

"We have captured a number of prisoners."

### Zeppelin Destroyed.

London, Aug. 21.—British light naval forces destroyed a Zeppelin airship this morning off the Jutland, Denmark, Coast, says an official communication issued this evening.

The communication adds that there were no survivors from the crew of the airship.

### MOBILIZATION DATES SET FURTHER BACK

Washington, Aug. 20.—Mobilization of the second increment of the National Army to-day was postponed from September 15 to September 19 and of the third increment from September 30 to October 3. Mobilization of the first increment will be as previously announced, September 5.

Capt. Wm. E. Bennett and son, William, of Owensboro, spent last Saturday night here the guests of Mr. and Mrs. R. E. Duke. Capt. Bennett attended the meeting of Keystone R. A. Chapter while here.

## GREAT LAKES TONNAGE TO BE PLACED IN OCEAN

BILLION DOLLAR PROGRAMME DISCUSSED AT CONFERENCE IN WASHINGTON.

Washington, Aug. 21.—Estimates included in the request the Shipping Board will make for a billion-dollar appropriation to complete its eighteen-month building programme were gone over to-day at a conference between Chairman Hurley of the board and Secretary McAdoo. The request will go to Congress probably this week.

The board needs \$500,000,000 for construction of fabricated steel ships, \$250,000,000 to carry out completion of vessels now building in private yards and other \$250,000,000 for contracts for steel and wooden ships to be let soon. The completion programme will cost in all about \$500,000,000, but \$250,000,000 of the original \$750,000,000 appropriation will be used for that purpose.

Contracts for building fabricated ships will be let within a few days. Three concerns, it is understood, are negotiating with the Emergency Fleet Corporation for building Government-owned yards and the fabricated ships. They are the Submarine Boat Corporation, the American International Corporation and the Merchants Shipbuilding Company.

Plans for taking a large amount of tonnage out of the Great Lakes for Atlantic service also will be completed by the Shipping Board soon. It is estimated that between 200,000 and 400,000 tons can be removed before the winter season sets in. Some of the vessels will have to be cut in two before they can be put through the Welland Canal locks. The intention is to replace this tonnage during the winter with ships now building in lake ports.

## HALF OF SALONIKI IS DESTROYED BY BLAZE

London, Aug. 20.—More than half the walled city of Saloniki, in Greek Macedonia, which is under occupation by the Entente Allied troops, was destroyed by fire on Saturday. Eighty thousand people who were rendered homeless were being removed to neighboring villages last evening, according to a dispatch received in London. The fire is now under control.

## PRESIDENT TO SETTLE EXEMPTION PROBLEMS

Washington, Aug. 20.—A new definite statement of the Administration's interpretations of the exemption of married men and those with dependents is expected within the next few days. President Wilson has taken up the question and probably will settle the problem himself.

### The Lincoln Highway.

The Lincoln Highway is a road, the longest in the world, connecting 12 States and running between New York and San Francisco as directly as possible, consistent with the topography of the country. It is about 3,280 miles long but it is being gradually shortened by improvements and the elimination of curves.—L. A. W. Bulletin.

### Wants One Man.

Washington, Aug. 20.—Plans for appointing a coal administrator were taken up to-day by President Wilson with the Federal Trade Commission.

The President, it is understood, favors appointing one man instead of a committee of three, as asked by mine owners and workers. There was talk in official circles today of the appointment of Chairman Vovet, of the Union Pacific system, to the important place, but an opinion prevailed that he might not undertake it in addition to his work as head of the priority shipment board. There was no official indication of who the appointee would be.

### That's Possible.

Herbert—There's a man that is bringing up a couple of dozen families and he's only getting \$50 a month.

Herbert—How does he do it?  
Herbert—Well, you see, he's elevator boy in an apartment house.—Chaparral.

## NO OTHER PEACE OFFER TO BE MADE

GERMANY SAYS NO REPLY TO PAPAL NOTE BEFORE A CONSULTATION.

Berlin, Aug. 21 (via London).—Chancellor Michaelis informed the Main Committee of the Reichstag this afternoon that Germany would not reply to the papal peace note until she had consulted her allies.

Dr. Michaelis added that in view of the fact that Germany had previously repeatedly and positively indicated her readiness to enter peace negotiations the Vatican's appeal of course is looked on with sympathetic approval. Germany, however, could not again offer peace in face of the summary rejection of previous proposals and continued declarations by the Entente that no peace is possible until the Central Powers are defeated and crushed.

### Will Consult Reichstag.

The Chancellor informed the committee that no steps would be undertaken toward peace without fully consulting the Reichstag. He then declared that the military situation on all fronts was exceptionally auspicious and read a message received from Great Headquarters in which the U-boat campaign was given liberal credit for its effect in successfully warding off the Allies' offensive in Flanders.

Dr. Richard von Kuehlmann, the new Foreign Secretary, and other newly appointed Government heads were presented to the committee, which then took a recess. Constantin Fehrenbach, one of the Centrist party leaders, was elected chairman of the Main Committee to succeed Dr. Peter Spahn.

Dr. Michaelis conferred confidentially with the Reichstag leaders during the day, while party factions also were in session in the morning.

### Rejected By America.

Amsterdam, Aug. 21.—The Cologne Gazette, a copy of which has been received here, says in an editorial that the peace proposal of Pope Benedict has met with a blunt rejection in Washington.

"The enemy's bluff does not frighten us," says the newspaper. "If we hold out one more winter then the worthlessness of American assistance will be patent to all and nothing will remain for the enemy governments but to admit to their befooled peoples that they have lost the game."

## NEWS LETTER FROM HATTIESBURG, MISS.

Hattiesburg, Miss., Aug. 23.—Officers at Camp Shelby, who have charge of constructing the big National Guard encampment buildings, expect to make a record. They firmly believe that so far the progress at Camp Shelby has been greater than at other camps. One reason probably is the nearness of the great lumber mills of South Mississippi to the camp site. Hundreds of car loads of yellow pine lumber were at the camp yards within a few days after the placing of orders.

Every twenty minutes a new building is begun at Camp Shelby. The rapidly with which the structures are being erected is marvelous. There are many miles of company mess halls, kitchens, etc. Work is being rushed on them and the warehouses faster than on any other buildings, so that they will be ready as soon as possible.

It will probably be only a few days before the first Guardsmen of Indiana, Kentucky and West Virginia begin to arrive here, as everything is rapidly assuming a completed state. The artesian wells, work on which recently begun, is well under way, and in a few weeks the water supply will be ample for as many men as come to the camp.

Maj. W. J. Howard, of Massachusetts; Maj. Jackson Morris, of Kentucky, and other officers, are delighted with the progress being made, and are leaving nothing undone to provide for the comfort and convenience of the soldiers when they arrive. Members of the engineering corps, too, are very busy men, and are gratified at the progress apparent all over the big camp, which is a mile wide and fifty miles long.

Hattiesburg, Miss., Aug. 23.—Soldiers of Kentucky, Indiana and West Virginia, who will come to Camp

Shelby, will be in this section during the harvesting of the greatest corn crop in the history of Mississippi, as careful estimates by experts place the yield at about 100,000,000 bushels, or 30,000,000 more than the previous best yearly production record. The cotton crop in Mississippi will be 30 per cent greater than for several years, it being estimated that 1,300,000 bales will be raised. The crop will be worth approximately, with the seed, \$240,000,000, as the seed will bring from \$75 to \$85 a ton and the cotton will average \$125.00 a bale, the largest prices commanded since the Civil War. With corn selling for more than \$2.00 a bushel, one gains an idea of the value of these two crops in this state for 1917.

Many of the National Guardsmen who are coming here from the North and west will see cotton fields for the first time. They have heard the song "Picture, to-night, a field of snowy white", perhaps, and when they get here they will view the fields some late cotton in bloom, and the early cotton with the bolls bursting open, and the white cotton ready to be picked. They will see cotton picking scenes, and hear the Southern dinkies singing folk songs, as they proceed with their work.

Preparations to give the soldiers a cordial welcome continue unabated, and different committees of citizens are completing all their plans, which have for their object making the boys in khaki feel at home in this Southern community.

### What Is Germany?

Has not the time about arrived for a suspension of all this superior language about making the world safe for democracy and liberating the oppressed people of Germany from the heel of the Kaiser, and our awakening to the fact that we are at war, and a very serious war? We do not wish to make light of the high-aimed words of our President or of the idealism that made this glorious republic enter the lists of battle against autocracy, but let us look the facts in the face.

If any one of our readers has a friend who is really "on the inside" at Washington or who is a member of the National Security League, he will tell you that the situation is most grave; that the Allies are at the crest of their power; that the submarine menace is more serious than is publicly admitted; that Germany has today accomplished all that the most sanguine junker could have hoped for and that she has only to maintain the defensive, with matters progressing as they are, and she will win the war. These are facts! And some people are still debating whether we should have entered the war! And others are promoting peace propaganda!

Now, who and what is this Germany we are fighting and which has advanced a measurable step forward the conquest of Europe, if not of the world? Who is it that has extended the power of Germany from Riga to Bagdad? Is it the Kaiser, or von Tirpitz, or von Hindenburg, or the whole outfit of junkers? No! It is the German people, united and firm, behind the Kaiser! This is the Germany the United States is fighting, and don't anyone make any mistake about it.

It may be that the German people are misled; that they have had wrong ideas and wrong ideals instilled in them from childhood; and that they would have greater individual opportunity under a democratic form of government. But this is no time to worry about the German people. They would not thank us for it and we have another job on our hands.

## HELD AS SPY WHEN DYNAMITE IS FOUND

Ashland, Ky., Aug. 21.—A man who gave his name as M. H. Milligan is under arrest in Catlettsburg on a charge of being a German spy. The police say that when he was arrested he had in his possession seven sticks of dynamite, an alarm clock and drawings of the C. & O. tunnels in this section.

## DRAFT MEASURE VALID, GEORGIA JUDGE HOLDS

Mount Airy, Ga., Aug. 20.—Federal District Judge Speer held the selective draft law constitutional in a decision here to-day in the case of Albert Jones, a negro represented by Thomas E. Watson. Watson contended that the law is in contravention of the involuntary servitude provision of the Constitution.

## BOARD MAKES SECOND CALL

TWO HUNDRED AND EIGHT GET SUMMONS TO APPEAR FOR EXAMINATION.

## 104 MEN ARE NEEDED

Only 52 Accepted Out of First 317—County Falling Behind in Its Average.

The Local Exemption Board has made the second call for registered men for examination on August 27, 28, 29 and 30, beginning with number 318 and including number 524. It is necessary to have 104 to complete Ohio county's quota of the first National call. Ohio county has fallen below the average district, so it appears, requiring 6 men in this county, out of which to secure one soldier. If this ratio is kept up it will require between 925 and 1,000 out of which to secure 153 soldiers.

Below we give a complete list of those who are embraced in this second call for examination on one of the four dates mentioned. The first name appearing is number 318 the next 319, and so on in order number of call. The list is also divided so that each may tell or see upon which date each individual must appear:

## DE PALMA BEATS BARNEY OLDFIELD

### ITALIAN DRIVER TAKES EVERY EVENT FROM HIS OPPONENT.

Sheepshead Bay, Aug. 18.—Ralph de Palma today dethroned Barney Oldfield as auto speed king. In a series of three races at twenty, thirty and fifty miles in which De Palma, Oldfield and Louis Chevrolet met for the title, De Palma in his Packard racer showed the way to his adversaries. Oldfield finished last in the first two events and second in the fifty mile affair.

De Palma negotiated the thirty miles in 16:35 4-5, the twenty miles in 10:53 4-5 and the fifty miles in 27:32 1-5.

Oldfield's Golden Sunbeam car proved to be a sort of liver. The dethroned speed king discarded it in the last race and raced the fifty-mile affair in a DeLage car.

Soon after the start of the thirty-mile race, it was apparent that Oldfield was "not in the hunt." De Palma and Chevrolet quickly outdistanced him. Chevrolet led for the first two miles and then De Palma went into the lead. It was a nip-and-tuck affair to the finish between these two and De Palma in a final spurt won the race by a few yards. Chevrolet just failed to get up. The race was run at an average speed of 108 miles per hour.

In the twenty-mile race, De Palma led almost thruout, closely followed by Chevrolet. The race was practically a repetition of the thirty-mile affair and De Palma again won by yards. Carburetor trouble was said to be the cause of Oldfield's poor performance in both races. The twenty-mile affair was at an average speed of 110 1-5 miles an hour.

In the final event at fifty miles, De Palma took his racer out in front at the start, shot into the lead and gradually drew away. At the end of ten miles Chevrolet's car "blew" a tire, which caused him to lose ground. De Palma increased his lead. Chevrolet then "blew" another tire and he was practically out of the race. Oldfield jumped into the second place, but De Palma beat him more than a lap at the finish.

Miss Katherine Stinson who was to have raced Oldfield in an aeroplane, did not arrive at the track in time. It was stated that she had met with an accident in her journey from Albany.

#### BOMB HITS U-BOAT;

##### SUBMARINE SUNK

Fort Smith, Ark., Aug. 18.—A gun pointer in the United States Navy, now on duty on an armed merchantman, writing to his mother here, describes an adventure with German submarines in the war zone on a voyage about the middle of July. On the ninth day out, a submarine suddenly came up beside the merchantman, too close for use of its deck gun or torpedo tubes. The naval gun crew was unable to attack, but a member of the gun crew picked up a bomb and dropped it on the sub-

marine causing an explosion which sank the enemy. The merchant ship was under convoy of a cruiser and on the day following the attack above mentioned the cruiser was attacked from both port and starboard simultaneously by submarines. The torpedoes passed astern of the cruiser and a salvo from both sides of the cruiser at the two submarines caused both to submerge.

#### ARRESTS SELF WITH HIS OWN HANDCUFFS

Indianapolis, Aug. 18.—Ake Brown is a most accommodating man—he handcuffed himself and made his arrest a simple matter.

Brown had visited the home of James Fleming frequently. Several articles were missed and suspicion pointed to him. He gathered with the family one evening for a friendly chat and proudly exhibited a pair of handcuffs he had purchased.

"Show us how they work," said Mrs. Fleming.

"Simple, just like this," said Brown and he accidentally locked them.

"We'll call the police to unlock them for you," said Mrs. Fleming.

"Fine, thanks," answered Brown jovially.

And when the police came, Mrs. Fleming told the police not to unlock them until she had put a charge of larceny against Brown.

## THE DUTY OF A JUST GOVERNMENT

### FAMILY ALLOWANCE, INDEMNITY AND INSURANCE FOR OUR SOLDIERS AND SAILORS.

The number of claims for exemption from military duty under the draft law has caused a painful impression in many quarters, but after all, does not the fact that no provision has yet been made by the Government for the support of the wives and children, mothers or fathers, of the men who have been drafted explain many of these claims for exemptions?

Under the draft law the Government has the power to require every able-bodied man between 21 and 31 years of age to perform military duty. Thousands of the drafted men are wage-earners who married years ago and are the sole support of dependent families. So long as the Government has made no provision for the care of these dependents, it is natural that such drafted men should seek to protect their loved ones by staying at home. I am sure that if the Congress should promptly enact the pending war insurance bill, which makes definite allowances for the support of the dependent wives and children, fathers or mothers, of our soldiers and sailors, claims for exemption on that score will cease. This is an imperative duty of the Government. We cannot deprive helpless women and children of the support of the wage-earners by forcing him into the military service of the country unless the Government substitutes itself as their support.

Imagine the emotions of the man who is called into the military service of his country with full knowledge that his loved ones are left without means of support and may be reduced to want unless the charity of the community in which they live comes to their relief. It would be nothing less than a crime for a rich and just Government to treat its fighting men so heartlessly and to subject their dependent wives and children, who are unable to fight, to greater suffering than if they could fight.

The morale of an army is as essential to its effective fighting power as guns, ammunition and other instrumentalities of war. Of equal importance is the morale of the civil population which must support the armies in the field. We cannot have this essential morale unless the Nation comforts the men in the ranks with the knowledge that everything possible will be done for them and their families, and renders to the civil population at home the assistance which will make it most effective in upholding the Government and the fighting forces.

The purpose of the war insurance bill now pending in the Congress is to secure the future of America's soldiers and sailors by insuring their lives and providing adequate compensations and indemnities for loss of life and total or partial permanent disability; also to protect their families against poverty and want by providing them with sufficient means of support during the absence of the men at the front.

The nation, having been forced to reseat to the draft in order to create quickly an army to save the country, is under a higher obligation to do these things for its fighting forces than if a volunteer army only was created. This great and rich Republic cannot afford to do less, and it must do what is proposed in a spirit of gratitude and not as charity. Every soldier and sailor who serves his country in this war will earn everything the proposed war insurance bill provides; to be a beneficiary of the proposed law will be a badge of honor.

When we draft the wage-earner, we call not only him but the entire family to the flag; the sacrifice entailed is not divisible. The wife and children, the mother, the father, are all involved in the sacrifice—they directly share the burden of defense. They suffer just as much as the soldier, but in a different way, and the Nation must generously discharge as a proud privilege the duty of maintaining them until the soldiers and sailors return from the war and resume the responsibility.

We have drawn the sword to vindicate America's violated rights, to restore peace and justice, and to secure the progress of civilization. We cannot permit our soldiers, while they hold the front, to be stabbed in the back by uncertainty as to what is being done for their loved ones at home. Our tomorrows are in their hands—theirs in ours. The national conscience will not permit America's soldiers and their dependents to go unprotected with everything that a just, generous and noble people can do to compensate them for the sufferings and sacrifices they make to serve their country.

Aside from the care and protection of their dependents while the soldier is alive, the proposed war insurance

act provides for definite compensation for his dependents in case of death, for definite and adequate indemnities in case of total or partial disability, and for re-education of the maimed and disabled man, so that he may take up a new occupation and make himself a useful member of society. We must restore their efficiency and adjust their still available faculties and functions to suitable trades and vocations, which the injuries of the battlefield have not wholly destroyed. The heavy depletions in manpower resulting from this conflict, which is without precedent in history or imagination, will place new and greater values upon all forms and degrees of human energy, and demand as a first duty of intelligent government that every remaining useful sense and limb of the blind and crippled shall be reclaimed under the heaven-sent processes of education and reapplied to economic uses for the benefit of society. The millions we shall be called upon to spend to support the dependents of the soldiers while they are in the fighting-line, for indemnities and for re-education of the crippled, are sums of capital advanced by the Nation to promote utility, self-respect and economic development. More than all, they are essentially humanitarian and in the highest sense a discharge by the Government of an essential duty to society.

Military service is now obligatory; those who imperil themselves have no election. The insurance companies do not and cannot permit this fact to affect their calculations. They must protect themselves by charging premiums so high that they are secured against loss no matter how severe the rate of mortality may be. Consequently, the very men who are called into the service because their physical condition is of the best and who as civilians would for that reason be able to secure the most favorable insurance rate in peace time, are denied as soldiers the necessary life insurance to enable them to protect their families and dependents. The tremendous rates charged by private insurance companies to protect them against the extra-hazardous risks of war put insurance entirely beyond the reach of the conscripted soldier.

Military necessity, has, therefore, subjected the most fit subjects for insurance to an insurmountable discrimination unless the Government itself supplies insurance at cost and upon a peace basis. It would, in fact, be dastardly and undemocratic if the Government should penalize the soldier who is forced to render the highest duty of the citizen by its failure to provide war insurance upon peace terms and at net cost, first, because the pay of the enlisted men in the Army and Navy is less than the wages and salaries generally earned in private life, which reduces their investing capacity; and, second, because Government insurance is an essential war and emergency measure, inaugurated for the specific benefit of our military forces, and cannot and should not be conducted for profit.

Such overhead charges as agents' commissions, advertising, promotion, local rentals, etc., are eliminated. The Government must assume the cost of administering this benevolent agency, just as it bears the cost of administering all other Government agencies established for the benefit of the people.

This legislation will be a great step forward in the recognition of the Republic's duty to its heroes. I consider it the most significant and progressive measure presented to Congress since the declaration of war. It immediately affects the well-being of a greater number of persons than any act with which I am familiar. It deserves the earnest and vigorous support of the country. It provides the broadest and the most liberal protection ever extended by any government to its fighting forces and their dependent families. The United States, the most progressive and prosperous nation on earth, setting an example in the ideals for which enlightened humanity is fighting, should set the highest example of all the nations in the treatment of those who do and die for their country and for world freedom.

We are proposing to expend during the next year more than ten billion dollars to create and maintain the necessary fighting forces to reestablish justice in the world. But justice must begin at home; justice must be done to the men who die and suffer for us on the battlefields and for their wives and children and dependents who sacrifice for us at home. To go justice to them requires only a tithe of the money we are expending for the general objects of the war. Let it not be said that noble America was ignoble in the treatment of her soldiers and sailors and callous to the fate of their dependents in this greatest war of all time.

The pending war insurance bill gives compensation, not pensions; it fixes amounts definitely in advance instead of holding out the mere chance of gratuities after the conclusion of peace. It saves the dependents from want and gives them the necessities of life while their

## Monterey County Needs Good Farmers

Notwithstanding the fact that Monterey produces millions of dollars worth of potatoes, sugar beets, apples, peaches, barley, alfalfa, dairy products, live stock, etc., there is much land that only needs farmers and settlers to make it more intensively productive. #### Chronic Constipation.

It is by no means an easy matter to cure this disease, but it can be done in most instances by taking Chamberlain's Tablets and complying with the plain printed directions that accompany each package.

#### No Quarter For Him.

Mrs. Jones was standing in the doorway talking with old Mr. Ham, a neighbor. They were speaking in uncomplimentary terms about an impostor who had late passed thru the village, swindling right and left.

"He'd better not come round here again!" exclaimed Mrs. Jones indignantly. "If he does, I'll give him no quarter."

"Quarter!" shouted the enraged old man; "quarter." Well, I guess not! I wouldn't give him ten cents?" The Youth's Companion.

#### Stop Left Over Coughs.

Dr. Bell's Pine-Tar-Honey will stop that hacking cough that lingers from January. The soothing pine balsam loosens the phlegm, heals the irritated membrane, the glycerine relieves the tender tissues, you breathe easier and coughing ceases. Don't neglect a lingering cough, it is dangerous. Dr. Bell's Pine-Tar-Honey is antiseptic and pleasant to take, benefits young and old, get it at your druggist to-day. Formula on bottle. 25c.

#### He Finds Christians.

A traveler who believed himself to be the sole survivor of a shipwreck upon a cannibal isle, hid for three days, in terror of his life. Driven out by hunger, he discovered a thin wisp of smoke rising from a clump of bushes inland, and crawled carefully to study the type of savages about it. Just as he reached the clump, he heard a voice say: "Why in hell did you play that card?" He dropped on his knees and, devoutly raising his hands, cried: "Thank God, they are Christians."—Everybody's Magazine.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

#### "LUMBERJACKS" RECRUITED TO FULL STRENGTH

Washington, Aug. 21.—The regiment of lumbermen, officially known as the 10th Engineers (Forest) and nicknamed the "lumberjack regiment," has been recruited to full strength, and the Forest Service, which has been securing the men, has been notified by the War Department to list no more candidates for service with this regiment. In anticipation, however, of a possible call soon for another regiment of the same character the listing officers all over the country have been instructed to continue listing names of suitable men who may be summoned when needed.

The "lumberjack regiment" is not a fighting force but will be employed in woods operations in France, getting out material for army use. The recruits are now being assembled in Washington, where they are drilled daily by the officers assigned to command them. Col. Woodruff of the regular army, who will head the regiment, is in charge and with the assistance of a staff made up of practical lumbermen and foresters is providing an equipment of the most up-to-date character for the type of woods operations called for, in the list of the experience of the Allies. The regiment will take with it both stationary and portable sawmills with everything necessary for logging and sawmill work and for transporting the product.

#### Summer Complaint.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly which can only be done when the medicine is kept at hand. Mrs. F. P. Scott, Scottsville, N. Y., states, "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."

## Babies' Health Contest Draws Mothers to the State Fair

COMMISSIONER COHEN AND PRIZE CUP AND BABY.

You would guard your baby with your life, but how much better to guard it with your brain. One million babies are now entering on their first summer, and one out of every fifteen of these will die, according to medical statistics, from heat, poor nourishment and the wrong clothes. Do you want your baby to be one of the fifteen? If not, learn how to keep your little one from heat suffering, from the wrong food and from clothes that sap its little strength.

Through the examinations, mental and physical, the scoring of points both good and bad, the scientific object lessons and reading matter provided by the Babies' Health Contest at the Kentucky State Fair, which will be held this year the week of Sept. 10, thousands of mothers are enabled to judge just what dangers are threatening their babies, just what ills to remedy and just how to keep them in prime condition.

If you had a hog, a horse or cow you would learn and know something of its care, because it is valuable. Isn't your baby worth more than horse or cow or pig? Is the query of those interested in the promotion of scientific baby care. They argue that, no matter how lovely, how dimpled, how pink

and white and sweet it is, there may be disease or deformity lurking under this beauty, and this is an evil of which you should be forewarned.

Up to date mothers throughout Kentucky are not only entering this contest to find out about their babies, but are coming back year by year to mark the progress this knowledge has given them and the improvement it has made in their children.

The contest this year, which is under the supervision of Mrs. John L. Woodbury, will be marked by a number of innovations, among which will be an elaborate display of knitted goods for babies and the giving away of patterns for those articles to the mothers desiring them.

Another attractive feature will be the spectacular parade which will find the baby contest. This parade will be arranged as a beautiful spectacle in the Hippodrome pavilion and will show every little tot entered in the contest to the greatest advantage.

Entrance to the Babies' Health Contest is free and is open to babies between twelve and thirty-six months throughout the state of Kentucky. For catalogue or information address Point T. Kriemer, Secretary Kentucky State Fair, Suit 604 Republic Building, Louisville, Ky.

## Marvelous Entertainment Features On the State Fair Program

THE WHIRLING ERFORDS.

THE Kentucky State Fair is a valuable, instructive and progressive institution, but to the average person it is the amusements offered by the fair which constitute its greatest appeal.

In the Hippodrome exhibition, to be held nightly in the Live Stock Pavilion, there has been secured an entertainment which will out rival anything of the kind ever offered. The horse show which has heretofore distinguished the Kentucky State Fair will again be given in its entirety, and yet in addition to these features, which are well worthy a \$2 admission fee in themselves, the management is providing the added and unrivaled glory of a world's championship five galloped saddle horse stake of \$10,000, which will be offered in combination with both Hippodrome and horse show for the unprecedented admission price of 50 cents per person.

Some of the features will be: The Helen Leach-Wallin Trio in a grand aerial whirling exhibition which is said to be the most thrilling of its kind ever offered.

They will be followed by the Four Roeders, who are equilibrists of unbelievable skill and strength.

The Tasma Three are a trio of fetching young girls who present one of the most dangerous and sensational wire acts in the show business.

The Holstels Brothers, "daredevils of the arena," do a death defying stunt in which one makes a sensational dash

down a steep incline in a miniature auto, loops a great arc and flies from the abandoned car on to the outstretched hands of his partner, who holds him aloft despite the terrific impact.

The Novel Brothers are described by their billing. Their specialty is clowning and music.

Olympia Des Vall & Co. is reputed to be one of the most beautiful and wonderful equine and canine exhibitions in America.

Holland and Dockrill offer sensational bareback riding and whirlwind driving with four magnificent Arabian horses and a gold Roman chariot.

Adeln Von Ohi boasts but the one horse, but she is said to provide a whole show. Miss Von Ohi is regarded as the most noted cowgirl in America.

The piece de resistance of the roster will, it is claimed, be Erford's Marvelous Whirling Sensations. The keynote of this act is aerial whirling in picturesque array of angels and demons. One of the prettiest features is the "Dance of the Demons" and a finale on musical bells.

This entire wonderful program will be crowned and completed by Cavallo's great Concert Band of forty musicians. They are said to be richly uniformed.

The Kentucky State Fair Catalogue for the 1917 fair, to be held in Louisville the week of Sept. 10, lists 6,000 prize ribbons, over 100 cups and trophies, valued at \$5,000 or more, and a money award total of \$50,000.

## Great \$10,000 Saddle Horse Stake For 1917 Kentucky State Fair

Owners and Breeders Throughout the Country Interested In President Cohen's Ambitious Enterprise.

RICHLIEU KING, 1916.

HERMAN STRAUS & SONS' CO. CUP. LEVY BROTHERS' CUP.

Two of the many trophies offered in the great \$10,000 five galloped saddle horse stake at the fifteenth annual Kentucky State Fair, the week of Sept. 10, are magnificent silver cups donated

HON. MAT S. COHEN, commissioner of agriculture and, by virtue of this office, president of the Kentucky State Fair, has secured a \$10,000 five galloped saddle horse stake for the 1917 Kentucky State Fair to be held in Louisville the week of Sept. 10-15.

Commissioner Cohen, with the unanimous endorsement and enthusiastic support of the members of the state board of agriculture, was untiring in his efforts to secure the interest and co-operation of horse owners and breeders throughout the country, and his plans were crowned with splendid success. From nearly every city of any size in the United States letters have poured in upon the commissioner eulogizing his brilliant achievement and commending the vitalizing effect of such a project upon the horse interests of the country.

World Will Look to America. The commissioner has made it known that this very motive inspired him in his efforts for this gigantic prize list, as it is his firm belief that at the close of the present disastrous and exhausting war all foreign nations will look to America for foundation stock and new blood and that this nation should prepare for the demand. At present he declares that the breeding operations of this country have ceased to an alarming extent and that just such inspiration as this hitherto unheard of stake is necessary to arouse the horse men and breeders of the United States.

Entrance Fee Waived. In addition to the magnitude of the prize money, the fact that any entrance fee is waived and the horse owner or breeder privileged to enter as many animals as he cares to nominate free of charge and that stable room and bedding are provided by the State Fair without cost to the owner is certain to attract the attention of the entire horse world and to make the five galloped saddle horse events of the 1917 Kentucky State Fair the most sensational saddle horse affair of the age.

The battle royal for the \$10,000 in prizes will open Monday night, Sept. 10, with a grand prize total of \$2,500 offered the five galloped saddle stallion of any age who bears off the championship honors of America in his sex class.

### HOLSTELNS PROMINENT AT KENTUCKY STATE FAIR

Prize Money Doubled For the "Stars of the Show."

Holstels will be one of the most prominent classes in the beef cattle department of the coming Kentucky State Fair, to be held in Louisville the week of Sept. 10. The prize list for this breed of efficient dairy performers has been doubled and now represents the interesting sum of \$800.

All of the classes throughout the beef cattle department have been largely increased, but the Holstels aggregation bids fair to be the "stars of the show." A model dairy in operation is promised as an adjunct to the dairy cattle exhibition, and there will be new features of scientific dairy management marking the cattle exhibit of the fifteenth annual State Fair.

For catalogue or information address Point T. Kriemer, Secretary Kentucky State Fair, Suit 604 Republic Building, Louisville, Ky.

The prize money donated and set aside in this class is as follows:

How Prize Money is Divided.

One thousand dollars to the horse winning first prize, \$325 to the horse winning second prize, \$375 to the horse winning third prize and \$250 to the horse winning fourth prize. In addition to the first prize of \$1,000 the saddle stallion proving champion of the country in his class will receive a sterling silver cup, on which will be engraved "Championship of America for five galloped saddle stallion, any age," and which will be valued at \$250.

On Tuesday night of Fair week the mare division of the saddle horse stake will be shown under the same conditions and with the same amounts and divisions as in the stallion rings.

Wednesday night the exhibition of geldings will take place in identically the same manner and with the same divisions.

Saturday night the grand finale of the horse show will take place, when the four champions of America in their particular sex classes meet to compete for \$2,500 in prize money and the title of grand champion of America. The money in the grand championship event will be divided the same as in the sex classes, and, in addition, the winner will receive a sterling silver trophy known and inscribed as the "Grand Championship of America for five galloped saddle stallion, mare or gelding of any age."

Judges Carefully Picked.

Entries for these stakes will close Aug. 1, and all nominations should be sent in immediately to Point T. Kriemer, secretary of the Kentucky State Fair, Republic Building, Louisville.

Three judges will be selected to preside in these rings, the officials to be named by the State Board of Agriculture of Kentucky, the State Board of Agriculture of Missouri and the State Board of Agriculture of California. This guarantees judges of the highest integrity, ability and nation wide reputation among horse men and officials eminently well suited to serve in the most spectacular and important horse event the world has ever known.

For catalogue or information address Point T. Kriemer, Secretary Kentucky State Fair, Suit 604 Republic Building, Louisville, Ky.

### BIG SHOW FOR WOMEN PLANNED FOR STATE FAIR

One of the Most Creditable Exhibits in the Entire Gigantic Display.

Busy housewives and experts in arts and crafts are taking advantage of every moment in preparation for the showing to be made at the fifteenth annual Kentucky State Fair, to be held in Louisville the week of Sept. 10.

The Woman's Department is naturally the most interesting portion of the State Fair to womanhood and is like wise one of the most creditable exhibitions in the entire gigantic display.

The entry list for this department will close Aug. 27, and a "hurry up call" is issued by Kentucky State Fair Secretary Point T. Kriemer, Suit 604 Republic Building, Louisville.

This war stuff has not only proved the undoing of red liquor but red lights as well.

In Ohio county it takes six men to make one soldier, that is, according to the rate of yield in the first 317 summoned before the local board.

Since the hog has become the highest priced animal in captivity, he is not supposed to do his own rooting. No, it's not root hog or die, as it once was.

The Republican has made arrangements to receive news letters from Hattiesburg each week while our soldier boys are stationed at Camp Shelby, adjacent to that place.

How we would like to get one good short squint at the fellow who once upon a time, delighted in tearing his curly locks and shrieking, "Oh, you robber Barron Tariff! You horrible plunderer of the great common people, creator of high prices and etc.," and so on.

President Wilson, in fixing the price of Western Kentucky coal at \$2.20 per ton at the mines, didn't save we people in this district anything to brag about. Some mines are now selling it for approximately \$1.50, or perhaps \$1.55 and the largest contractors in the country get it for \$1.60 per ton and a lot of it comes from districts where the price is fixed as high as \$2.65.

From the 317 registered persons who have been before the local Exemption Board, only 52 have been accepted and placed upon the reserve list to await the call to colors, by the proper authorities. The exemption claims of some ten or twelve, perhaps, have not been finally passed upon and it is likely that a few of these will be accepted. The Board has made another call for 298 men for examination and the call includes numbers 318 to 524, inclusive, as they are required to call double the number desired to finish the first quota. We publish in another column, list of those embraced in the

second call, showing the date on which each man is to appear before the board.

Nearly every moderate sized community has one or more energetic young citizens bearing a commission of Lieutenant or higher rank, lately bestowed in competitive examination, for service in Uncle Sam's army and while we, with the kith and kin of the newly commissioned take just pride in our young vigorous officers, yet our pride is deeply overlain with sorrow, that the flower of our young manhood must be called away on a mission fraught with so many dangers and hardships.

If the citizens in every county in each State were just like they are in Larue county, to raise an army of 1,000,000 men, it would be necessary to call only that number for examination. The county of Lincoln's birth needed 132 to fill her quota. The 132 first in the call, appeared for examination, every mother's son passed the physical ordeal and not one claimed exemptions. This is a record perhaps that will not be equaled in any call at any time.

Crop prospects in Ohio county never before were so flattering as at present. The lowest places in the lowest bottom lands have had a bit too much rain. Corn on small areas of that character has yellowed slightly. To take the crop as a whole it is by far the largest ever planated and the corn on high land is making the River bottom corn burst thru the shuck almost to keep up. Considering the acreage and quality, it is a fairly safe proposition to say, barring accidents, that Ohio county will yield three bushels of corn this year to one, in any previous year. Tobacco is also fine, tho of late, just a bit too much rain. Cutting of early burley has commenced. For the first time, we have a large crop of soy beans, that is, comparatively speaking, and an unusually big crop of stock peas, all looking fine. Farmers of this section should put by money sufficient to weather thru for some time, tho crops be not so good for a year or so to come.

### FEDERAL OFFICERS ARREST 15 GERMANS

Sloux Falls, S. D., Aug. 21.—Fifteen Germans were arrested at Tripp Hutchinson county, South Dakota, today, by Federal officers, charged with violation of the espionage act, according to advices received here late this afternoon. The men were taken to Yankton, S. D., and arraigned before United States Commissioner E. T. White, for preliminary hearing.

Officials refused to divulge the exact nature of the complaint filed against the men. However, it is understood that they signed a petition to the County Treasurer protesting against the draft. It was stated that most of the men could not speak or read English and did not understand what they were signing. On August 14, fifteen other Germans, Socialists, were arrested, in Hutchinson county by Federal officers on a similar offensive. They were charged with having signed and circulated a petition demanding a referendum of the draft and the war and attempting to intimidate county officials who were administering the draft. It was then intimated by officials that an organized propaganda was being carried on in German settlements in the State to create disaffection among citizens of German birth over the draft and the participation of this country in the war with Germany.

### OPEN SEASON ON DOVES

September 1, to October 15, Both Dates Inclusive.

Unlawful to kill more than fifteen in any one day—Some shooters have the impression if they go shooting one day and do not kill the bag limit they can make up this deficiency on the next day, and others think that they can after securing their bag limit assist their friends in securing their bag limit, both of which are violations.

Squirrels—It is lawful to kill squirrels from July 1, to December 15, both dates inclusive. Heretofore the squirrel law closed on the 15th day of September and opened again on November 15th, and ran to February 1st, of the following year, but this was changed by the last Act of the Legislature.

Unlawful to hunt except on their own land without license. License good only during the year in which issued.

## DETAIL OF ATTACK ON U. S. SOLDIERS

WITNESSES FOR GOVERNMENT RECOUNT RAID MADE NEAR CLAY.

Hopkinsville, Ky., Aug. 22.—The preliminary hearing before United States Commissioner Frank Cunningham, of nine of the men arrested in Webster county, on a charge of conspiracy to oppose by force the authority of the United States Government and in actually firing upon soldiers in Federal service stationed at the Diamond mine near Clay, on the night of August 2, occupied the entire day. When court adjourned the prosecution had not concluded its testimony and the case will be continued tomorrow.

The men on trial are Calvin Tosh, Grover Brown, Guy Brown, John Christopher, John Braden, J. T. Morgan, Emmett Hayes, Al Messmore and Enoch Herrin.

After the first witness had testified Tosh and Morgan waived examination and were held over, bond being fixed at \$5,000 each which has not yet been given. All pleaded not guilty.

### Learns of Proposed Attack.

The cases are the outgrowth of the recent strike in Western Kentucky coal fields. Capt. Ellerbe Carter told of being sent to Webster county in command of troops and sending a squad to Diamond mines on the night of August 2, when information of an expected attack was given him.

Lieut. Barnes, commanding the squad described the battle, saying he had ten men and they were attacked from a hill by a number of men. Firing was general and lasted fifty minutes and more than fifteen hundred shots were fired. The attackers directed their fire at cabins, occupied by negro nonunion miners, most of which were pierced time and again, the negroes escaping harm by taking refuge in the mine. He said bullets whizzed all around him and his men.

Lieut. Col. Bassett, Capt. Carter and Lieut. Otto testified as to statement made by John Braden in which they alleged he told them that the attackers were in two squads and he, Braden, led one and Grover Brown the other.

### Reads Dunbar Statement.

Col. Bassett also read a statement purporting to be that of Rayburn Dunbar, said to have been wounded by the soldiers and who is now in a Nashville Hospital, detailing alleged facts as to the attack.

W. J. Skinner said he took part in the raid and his party met at the Clifty mines and proceeded to the Diamond mines. He was vague as to how and when the plans were made for the raid and as to details. He was positive that at Clifty some one reported that the soldiers had arrived and some of the men said they "didn't give a damn."

W. L. Lynn, express agent at Clay, swore a sixty-five pound box, marked ammunition, and addressed to another party was taken charge of by J. T. Morgan on July 20. Another witness said he was called with his bloodhound to the scene of the battle and was fired at twice on the way by unknown parties.

### Ask If Mistake Made.

Chairman Sloss, after recovering from his surprise, dictated a letter to the Draft Board in Larue county asking if a mistake had been made. He said everybody knew Larue would do her duty, and more, but it was hard to believe any county on earth could hang up such a record. After signing the letter, he and Mr. Campbell began to study about the matter.

"Well, it looks impossible, but it looks right," Mr. Sloss said. "I don't see any chance here for a mistake of any kind. If the numbers did not come serially, I would say that some men had been rejected or exempted, but the numbers do come serially. The first is Number 258, which was the first number drawn. The second is the second number drawn, and so on down the line. There is not a number missing; they are there just as they were drawn in Washington; every man drafted was examined, every one passed the physical examination and every one was accepted as a soldier."

When Abraham Lincoln was in the White House, and asked for soldiers, they came from all parts of the country, singing, "We are coming, Father Abraham, 500,000 strong."

Lincoln is not in the White House now, but Woodrow Wilson is. Woodrow Wilson made the last call for soldiers, and when the call reached Lincoln's home the men all stood in line and answered, "here."

## RUSSIA'S WOULD BE NEW HOLY MAN

ONCE A PRINCE, NOW A MONK. LIVES AS HERMIT IN SOLITUDE.

Petrograd, Aug. 12.—(Correspondence of The Herald).—Andrew Bishop of Uln, is Russia's latest holy man. An exception in the reactionary Greek Orthodox Church, he is a prominent democrat and a daring ecclesiastical reformer. He is a candidate for the exalted post of Metropolitan of Petrograd; and were it not for his reforming zeal he would be Metropolitan already. Since the revolution, Bishop Andrew has resided at the Athos Monastery in South Petrograd, where he works for the regeneration of his church.

Andrew's career is a chapter from a Tolstoy or Turgeneff romance. He was born Prince Andrew Uchtomsky, member of a princely and once millionaire family famous in Russian history. His best known living kinsman is Prince Hesper Uchtomsky, who accompanied the late Emperor Nicholas, then heir apparent, on his journey around the world, published a history on the journey founded the Russo-Chinese Bank, gave Emperor Wilhelm the idea of the Yellow Peril; and for twenty years edited the Petrograd Viedomosti.

Bishop Andrew began his career as a wealthy guard officer. After four years of worldly living, he gave away his riches, and underwent the process of "simplification" described by Turgeneff in the novel, "Virgin Soil." "Prince Uchtomsky" died, and "The Monk Andrew" was born.

### Mortified Flesh And Prayed.

Unlike many Russian monks, Andrew lived in genuine asceticism. In estrangement from the world, in midnight vigils and prayer. He tenanted a six-foot square cabin in a remote forest, ate bread and drank spring water, and added good works to mortification and prayer.

Andrew's charity made him famous. Pensants flocked to his cell, and he was begged to join the richest, most aristocratic monastic communities. He refused. He preferred to wander along the Volga, preaching to Moslem Tartars, Kalmyks, Bashkirs and Tcheremisses, and to heathen Shaman tribes, descendants of the Asiatic hordes which devastated East Europe in the early Middle Ages.

Even the Petrograd reactionaries dared not ignore Andrew's fame. In the hope that he would go over to their camp, they made him a Bishop. Disappointed in this, they treated him as a foe and seditionary. They suspected his democratic ways, his straight talking to soldiers and peasants, and the simplicity of life which was a mute rebuke to his ostentatious colleagues. The reactionary plevhe and the reactionary procurer of the Holy Synod, Sahler, surrounded him with spies, gendarmes and agents provocateurs. In 1910 he practically was imprisoned in his house. He kept his courage and independence.

Alone of the higher prelates he refused to bow the knee to the infamous monk, Rasputin. Thereby he earned the enmity of Emperor Nicholas and Empress Alexandra, and just before the revolution he was in danger of being unfrocked or interned as a heretic in Souzdal Monastery.

After the revolution the monks of the Petrograd Athos Monastery offered Andrew their finest rooms for residence, and when he arrived a dozen lackeys and lay monks met him at the railroad depot. He refused to occupy the rooms. The in had health—he is a little, frail, almost transparent man—he sleeps in a tiny cell, lying on the iron lathes of a bed, sleeps three hours a night, and spends the other twenty-one in prayer, charitable works and projects of church reform.

### He Is a Free Man Today.

Today a free man, Andrew is promulgating plans for the democratization and purification of orthodoxy. He demands the convocation of an Ecumenical Council of the whole Russo-Greek Church; the delivery to the Russian State and people of the church's wasted treasures, and the universal application of the electoral principle to church appointments.

To the provisional government's invitation to accept the metropolitanacy, he answered that only the priests and the people had a right to choose or reject him.

He stands for the immediate and complete equalization of the secular white clergy with the monastic black clergy. At present preferment is granted only to monks. Members of the white clergy, however pious and learned, are kept in the position of parish priest, and paid on the average of \$150 a year. The secular "pope" has no stimulus to work.

Andrew is trying to eradicate the church's tradition of reaction in politics and its anti-Semitism and servility to the State; and he is preaching with apostolic zeal and eloquence

# GOOD BYE Straw Hats

August 8th is the beginning of the end of our Straw Hat business.

We don't want to carry over a Straw Hat---

WE WONT.

We have placed a goodbye price on every straw hat in the house. We have looked over stock over, bid goodbye to every hat, and marked all our elegant \$1.00 hats at 75c; \$1.50 at \$1.00, \$2.00 at \$1.25, \$2.50 at \$1.50, \$3.00 at \$2.00, \$5.00 Panamas at \$3.50.

And so it goes. If you want a straw hat hat for little or nothing, call at once, as we will be sold out in a very few days, for in some cases, the bands are worth more than we ask for the hats.

## LARUE COUNTY

### HOLDS RECORD

**FIRST 132 MEN PASSED—NONE CLAIMED EXEMPTIONS—QUOTA MADE UP.**

They are still raising men in Larue county, Kentucky, where Abraham Lincoln was born. Not a single man there failed to pass the physical examination or claimed exemption from the National Army draft for any cause, and the county's record is perfect up to date.

Larue county's quota for the National Army was 132 men. Exactly 132 men were examined and every one proved satisfactory from both the physical and patriotic standpoint. They were all lank, lean and lively, just like Lincoln, and all willing to fight that "Government of the people, by the people and for the people shall not perish from the earth."

It appears from the records in the office of District Board No. 1, of the Western District of Kentucky, in session here that everybody called in Larue county answered without delay and that all made good. It is presumed that a double quota was summoned for examination, as ordered, but the second batch of 132 men had their trouble for nothing. It seems that if 132 men are needed to defend the country, and the Government goes to Lincoln's old home to get them, it is only necessary to summon just that number of men.

### Married Men Included.

The records received by the District Board show that married men were included in the list of accepted registrants. They also show that none of the married men from Larue county objected to being included.

The District Board is greatly overworked; the members have twenty-four counties to look after, and it was only yesterday that they reached Larue. When they reached Larue and took a good look at the documents laid before them they ceased working and began wondering. And they wondered till supper time—that is, Chairman Stanley E. Sloss and Secretary Peter J. Campbell wondered, for the rest of the board had knocked off work for the day about thirty minutes before. Messrs. Sloss and Campbell were so absolutely completely and totally nonplussed that they had no more work left in them.

This is what they saw in the documents before them:  
One list of 132 names, each one the name of a soldier, the serial numbers beside each name coming in exactly the order in which they were drawn out of the glass globe in Washington.

Mr. Sloss looked at the document and passed them over to Mr. Campbell; Mr. Campbell looked at them rubbed his eyes, and passed them back to Mr. Sloss. Then looked at them together and concluded there was no mistake.

### STRAY STREAKS.

(By Fluke McFluke.)

Did you ever notice, that if one drops a jitney in church, it's always while prayer is being offered and it happens to be a grown-up, the said jitney rolls all over the house and rattles like a bell?

### Force Of Habit.

Some days ago we had Pearl Sandefur helping us out in a rush. Pearl you know is farming now, plowing &c., and when he wished to start the press for work the boys say he begun by hollering gad up, gad up here, three or four times before he thought of it's being a power press

Then, this week we had Billie Schampfire, of Schampfire's Job Office helping us out. Billie you know runs his presses by treadle with big good right foot. When William had made up his form and was ready for work, we turned around just in time to see Schampfire pawing around in the air with his right pedal, treadle hunting, finally he thought of the power then turned to me and remarked that his name better not appear in this column of dandified stuff this week, so we are not mentioning it.

Harold Holbrook says he has finally found the sort of automobile he's been looking for, as the insurance rate is practically nil, because there is nothing about the car to burn, except speed.

I am getting tarnation tired and sore on this draft business, even my Banker called me yesterday and told me he would give me just two hours to come to his place and fix up my draft. He said for about \$39 I could

get rid of it. Think he should be reported to Wilson, at once.

Tom Black, Ernest Birkhead and Lee Simmerman say they are going to put on some fair, just think of who it is, a fair.

Some one with willing hands purchased a bathing suit from Coombs, the editor of the the Herald, a few days since, and the matter was under discussion when Arthur Petty walked into the Herald office and whether suspicion pointed to Arthur or not, Petty was able to prove by a portion of his family and several of his neighbors that he had not taken a bath since 1910 or '11, and thereby relieved himself of grounds for reflections.

We see quite a number of confirmed old bachelors lurking around the post-office these last few days, what's the answer?

It looks very much like the corrupt practice act might be applied to that New York damsel and her bunch of lawyers who disconnected that old Guy from that \$100,000 on breach of promise proceedings recently, wherein the lawyers took down \$50,000 as their portion of the damages.

## RUSSIAN CRISIS

### NATION'S MENACE

**NEWSPAPER SAYS WORLD IN DARK THRU CENSOR OF REAL FACTS.**

Stockholm, Aug. 11.—Petrograd and Moscow papers arriving here contain reports of many more or less sensational recent occurrences and conditions in Russia which were unknown outside of the country so far, because the censor would not permit the correspondents of the foreign press to telegraph them to their papers.

The Petrograd Bourse Gazette publishes a very pessimistic interview with M. Nekrasoff, the Minister of Posts and Telegraphs. This clear-headed, forceful leader has lost all of his former optimism and frankly confesses that the situation is desperate. "Things are going from bad to worse," he says. "We are in the midst of a terrible crisis and nobody is able to predict how it will end. The next few weeks may decide not only the fate of the revolution, but also the future of Russia."

### Sensational Disclosure.

The Djen makes the sensational disclosure that while Arthur Henderson, a member of the British War Council, was in Petrograd a band of extreme Socialists broke into his apartments and demanded his departure after threatening him and ransacking his rooms. At the same time a committee of Socialist workmen arrested Col. Reacock, a member of the British Military Mission.

In a bitter editorial the Djen attacks the Soldiers' and Workmen's Council and demands that this body be disbanded by force, if necessary. "The council is saturated with anarchy and contains a large number of followers of the infamous Lenin," the organ of the cadet party says. "If Kerensky, Tseretelli and Skobelev do not act quickly the end of the revolution may come over night. Maximalism must be crushed with an iron hand, no matter how much blood may have to be shed."

### Army Discipline Gone.

The Uro Rossij says: "The discipline in the Russian army has not been shaken—it is gone entirely—and can not be re-established by the all-Russian officers' congress now in session in Petrograd. This body daily adopts new resolutions which continually contradict each other and are practically worthless, because they will not be understood by the men at the front, who are too ignorant to comprehend the conditions and to see the dangers threatening the revolution. It will take months to educate the slowly moving masses of the rank and file of the army."

"Delegates who have arrived in Moscow from the front to demand reinforcements for the trenches are in desperation over the condition of the garrison of the old capital," the paper continues. "The patriotic meetings called by them are thinly attended and create no enthusiasm. The soldiers remain apathetic and do not want to go to the front. Their drills are perfunctory, because the officers mostly remain away."

The Bourse Gzette describes a free-for-all fight that occurred during one of the sessions of the congress of soldiers, workmen and peasants, and claims that a number of radical representatives of the working classes were expelled permanently.

Arthur Petty is back at his old stand, serving those delicious lunches. He is also putting out the coldest drinks in town.

## SHERIFF'S SALE.

The Commonwealth of Kentucky, Ohio Circuit Court:  
E. E. Birkhead, Deputy Master Com'r., Ohio Circuit Court, P.T.F.

vs  
R. P. Beck and G. A. Hunter, Defendants.

By virtue of a judgment and levy of Execution No. 911, which was issued to me from the Ohio Circuit Court on the 20th day of Feb., 1917, in favor of the said E. E. Birkhead, D. C. O. C. ## HOUSING THE MOTORCAR.

**Some Advice on Building and Fitting Up a Practical Garage.**

"The size of the garage depends upon the size of the car it is to be used for," says C. H. Claudy in the Woman's Home Companion. "A convenient size for most cars is 14 by 18 feet. This will usually give plenty of room to work around the car. Shelf room is essential and should be all along one side, seven feet high and one foot wide. On the other side have plenty of nails for hanging things on. At the rear end, above the door, have a shelf wide enough to hold spare outer tires. At each rear corner have a three cornered closet for old clothing, etc. At the front corners have several three cornered shelves set in.

"A workbench is an essential feature. This should be built near a window, so that there will be abundance of light. Make the workbench of two inch boards and have it as large as space will permit. Do not have the supports, or legs, come down straight to the floor, as they will be in the way, but slant them back to the wall. Make drawers to slide under the bench for holding nails, tools, etc. A tool chest of common and useful tools under the bench is a good friend. Have two electric light extensions; also a hand electric searchlight.

"A life saving equipment is a length of garden hose that will fit over the exhaust pipe of your engine. When the engine is running, with doors and windows shut, it can end one of the hose over the exhaust pipe and put the other end outside through a hole previously made for that purpose. This may prevent you from being asphyxiated, as the gas from the exhaust is very poisonous and has been known to cause death."

Make your plans to visit the fifteenth annual Kentucky State Fair, to be held in Louisville the week of Sept. 10. This is "doing your bit" toward stimulating and encouraging agriculture and stock raising in accordance with the government's call.

## Farm Department

### Bright Future For Mule Producers.

Kentucky was the pioneer State in mule production. The American Jack was developed largely in Kentucky, which made the State so greatly interested in breeding mules. Gradually the Kentucky jack stock became distributed to neighboring states and the use of heavy mares on the corn belt farms made the production of mules an important industry of other states.

The mule is so superior to the horse as far as power that he is used in the South almost exclusively, while the middle and western states are calling for him in ever increasing numbers. Eventually he will be on almost every farm of the country and in the use for draft purposes in the cities of the north.

Draft mules are now in unusual demand at prices ranging from \$500 to \$700 per pair. The U. S. Army is in the market for classes that can be bought from \$160 to \$235 each. The small and hilly farms as well as the mines call for the 800-lb. to 950-lb. mules.

These demands make the outlook for mule breeders very bright. There is a market for almost every type of mule, but the better classes are more in demand and will pay better.

If brood mares can be used on the farms for work and at the same time produce mule colts each year, the greatest profit will arise. At present prices of feed it will not pay to keep mares for mule production alone. The brood mare to be profitable must do at least work enough to earn her board and interest on her cost. The colt will be profit. If kept on the farm, the mule colts can be brought to the two-year-old form on the coarser and cheaper feeds. Usually they can be broke at this age and made to earn their keep from this on. It is the method of breeding and feeding mules, they can be brought to the market age so as to realize a profit.

The demand promises to increase. The production in Kentucky has been falling off due to the scarcity of brood mares. Brood mares are not being replenished year by year as they should be. Breeders are not mating their mares to stallions because the prices of horses do not return to them the cost of their production. The scarcity of brood mares is certain to be reflected in the high price of mules. It would seem to be the part of wisdom to conserve and mate all high grade mares to jacks, as mules are sure to be in very great demand so long as this present war lasts, and many years during the readjustment.

Sprinkle air slacked lime around the yards.

Set cockles as fast as they come to the proper weight.

### Exercise Care In Harvesting Potatoes.

Harvest potatoes when the plants begin to show signs of maturity. Where the plants are dead, harvest at the earliest possible time.

If the weather is dry and hot, the potatoes will bake in the soil and subsequently rot when stored or planted for a second or fall crop.

Should the weather be cool and rainy, the potatoes in the ground may make a second growth if the vines are not entirely dead. No doubt small growths, which frequently look like "nubbin" potatoes, have been noticed on Irish potatoes. In preparing such potatoes for cooking purposes there is an unnecessary waste.

Store potatoes in a cool, dry, airy place if possible. If you have a cellar, cave or dugout which meets the above requirements, take advantage of it. The potatoes may be spread on the floor to a depth of a few inches. Slatted crates or slatted shelves may be used. A swinging table in the cellar would economize space and at the same time get the potatoes out of the way.

A cool, dry barn or barn loft may answer the purpose. A little morning and evening subdued sunlight will not cause the potatoes to rot.

There are several successful ways of storing seed potatoes for the second or fall crop. Where the first-crop seed is properly matured, and it is not the proper planting time, the seed may be placed on moist straw or leaves under a wide, shady tree.

### Various Causes of Bloody Milk.

Bloody milk is more objectionable perhaps, as a matter of appearance than as a menace to health. Hemorrhages may occur within the udder as a direct result of a bruise, caused by rapid motion, by a bad position while the cow is lying down, by the tread of a cow in an adjoining stall, or because of the breaking of a tiny blood vessel or the escape of red corpuscles through thin vessel walls. Heavy feeding may also produce bloody milk.

The remedy is careful milking and light feeding with laxative foods and repeated small doses of mild physic.

When the trouble occurs with cows giving a heavy flow of milk and under heavy feed, improvement follows a marked reduction of the ration. A change of stall may give good results if it allows a cow to obtain a better position and avoid uneven pressure on the udder while lying down. Cows with long, heavy udders should be driven slowly and should not be driven over high sills.

### Have You Any Attractive Pictures Made On Your Home Farm?

The Extension Department of the College of Agriculture, at Lexington, would be glad to have a few Kentucky farm pictures for various uses, mainly for leading to agricultural journals to be published.

To be of service pictures should show some animal of merit, a barn or other structure that has special advantages, crop scenes of unusual interest, farm operations in progress and in some instances an exceptionally attractive landscape would serve a good purpose.

Pictures to be really useful must be accompanied by full particulars, as they might have very little meaning unless explained.

There are invisible in every sire as many traits as there are visible. He transmits both.

### Miscellaneous Suggestions For Kentucky Farms.

- 1—Some good brood sows.
- 2—Feeding balanced rations.
- 3—A dairy association.
- 4—Clean, attractive farmsteads.
- 5—Two good live stock books.
- 6—Cull out all inferior animals.
- 7—Improved barns and fences.
- 8—Plant shade trees for your live stock.
- 9—A state stallion registration law.
- 10—Learn how to judge live stock.
- 11—Membership in a state live stock association.
- 12—Community cow-testing associations.
- 13—Better sanitary surroundings for live stock.
- 14—A small flock of sheep on irrigated lands.
- 15—The best agricultural paper in the United States.
- 16—A complete set of farm account books.
- 17—A week at the farmers' short course at the University.
- 18—A few gallons of crude oil to kill lice on live stock.
- 19—Sell scrub sires and purchase registered ones.
- 20—Co-operative live stock marketing associations.
- 21—A little special care and attention given the young animals.
- 22—Maintain the fertility of your farm by keeping live stock.
- 23—A trip to your county and state fairs to study live stock.
- 24—Community ownership of good stallions, jacks and bulls.
- 25—A holiday to visit your most successful neighbors.
- 26—A post card to your agricultural experiment station for advice.
- 27—One hour every day figuring out methods to save steps, make the work more efficient and more profitable.
- 28—Growing crops especially suited to produce feed for your live stock.
- 29—Adapt your system of farming to suit soil, climate and stock.
- 30—Making the boys partners in the farm by giving them a lamb or pig.

### The Inconsiderate Mice.

A more kind-hearted and ingenious soul never lived than Aunt Betsey, but she was a poor house-keeper. On one occasion a neighbor who had run in for a "back-door" call was horrified to see a mouse run across Aunt Betsey's kitchen floor. "Why on earth don't you set a trap, Betsey?" she asked.

"Well," replied Aunt Betsey, "I did have a trap set. But land, it was such a fuss! Those mice kept getting into it!"—The Youth's Companion.

### Lady Walnut Hill May Pass World's Egg Mark.

Lexington, Ky., Aug. 18.—Three hundred and ninety-eight eggs were laid during the forty-first week of the national egg-laying contest closing on the 16th, a decrease of sixty-seven eggs from last week. The four leading pens for the week produced twenty eggs each. A Rhode Island White pullet was the only one to produce a perfect score of seven eggs.

Lady Walnut Hill, of Louisville, a candidate for world's record honors for the year's production, laid five eggs. She has laid 254 eggs to date and has eighty-three days left in which to bring her record up to 315 eggs, to pass the world's record.

## OPENING THE BIBLE

### When the President Takes the Oath of Office.

#### NO PLACE FIXED IN ADVANCE.

The Passage of Scripture Upon Which the Chief Executive Presses His Lips Is Entirely a Matter of Chance—The Bible After the Ceremony.

The president before he enters on the execution of his office takes an oath or affirmation that he "will faithfully execute the office of president of the United States and will, to the best of his ability, preserve, protect and defend the constitution of the United States," and this oath is usually sealed or confirmed by the kissing of the Bible.

The kissing of the Bible as part of the inaugural ceremony is perhaps following a very ancient custom. The Egyptians were required to kiss the rolls on which the commands of Joseph were written.

The custom requires that immediately after the president elect has taken the oath, with hand on the Bible, the clerk of the United States supreme court shall throw open the book, and the incoming chief magistrate shall plant a kiss on one of its open pages.

Don'ting Thomases have always thought that there was no element of chance in this performance and that the passage of Scripture is always carefully selected in advance, and the book is held by the clerk of the court in position so that the incoming chief will kiss the passage that it is intended he shall kiss, but this supposition is entirely wrong.

James D. Maher, clerk of the supreme court, said that the opening of the book is entirely "haphazard" and that no man on earth has the slightest intimation in advance regarding the passage of Scripture that will be thus brought into notice.

Usually the Bible that is used in administering the oath is bought by the clerk of the supreme court and paid for out of his pocket and is a small Oxford edition costing \$10 to \$15. The late James H. McKimney, for many years clerk of the supreme court, once said, "You see, congress expends money only by appropriation, and if we were to wait for congress to appropriate the price of the book we might never get a Bible on time."

There have been exceptions, however, when the Bible came from other sources. For instance, when James A. Garfield was inaugurated March 4, 1881, he carried in his overcoat pocket to the capitol a well worn, leather bound volume which had been presented to him by his mother. The book was taken from the White House and in a few years found its way to the stall of a bookseller in San Francisco. How it got there has never been known, nor is it likely it ever will be. A few years ago it was offered for sale at a very high price.

Chester A. Arthur took the oath of office just after midnight at his home in New York city Sept. 20, 1881. The Bible used was one belonging to the then chief justice of the state of New York. It is cherished by the judge's family as an heirloom.

On March 4, 1885, when Grover Cleveland was inaugurated president for the first time, he, like Garfield, kissed the Holy Book which was given to him by his mother. It was a small volume, bound in red leather, and was presented to him many years before. The book is now in the possession of Mr. Cleveland's married sister at Toledo, O. The Bible upon which he took the oath in 1893, eight years later when he became president the second time, was one presented by his beautiful wife, and she became its possessor.

When Benjamin Harrison was made president March 4, 1889, the Bible used was one that his wife had given him on the day of their marriage in Oxford, O., where President Harrison spent his school days. The Harrison Bible is owned by Mrs. James R. McKee, the daughter of ex-President Harrison.

President McKinley used a Bible that had been presented to him by the negro bishops of the country. It was the biggest Bible ever seen at the clerk's office, and Clerk McKimney in relating the incident said: "The day before the inauguration one of the bishops called at my office with the Bible. It was a huge affair of the type known as family Bibles. It rested in an ornate box lined with purple velvet and fastened with gold. The box was ornamented by lock and key. When I realized that it would be my lot to carry that huge Bible from the senate chamber clear out to the front of the capitol my knees grew weak and I could not refrain from asking the bishop jokingly where the wheelbarrow was that should go with it."

The invariable custom is that on the day following the inauguration the clerk of the court takes the Bible to the White House and presents it to the first lady of the land as a keepsake.—Exchange.

#### Re-enforced Concrete.

The ark in which Moses was placed in the bulrushes, we are told in the second chapter of Exodus, was an ark of bulrushes daubed with slime and with pitch. This is probably the first recorded instance of a re-enforced concrete structure.

In matters of conscience first thoughts are best; in matters of prudence last thoughts are best.

### RUSSIAN IS DRAFTED AND HE CELEBRATES EVENT

Connersville, Ind., Aug. 17.—Alexander Schaffner, formerly Alexander Kofkovitch, who came to America from Russia several years ago, today was one of the happiest men of draft age in Fayette county. Granted his first citizenship paper yesterday morning, Schaffner was ushered from the County Clerk's office to the room where physical examinations for draft eligibles were being conducted.

Schaffner made a special display of his physical prowess, and when told he was physically fit he emitted a series of yells and embraced the examining doctors. Then he shook hands with every man in the room and those waiting outside. He employed a motorcycle owner to carry him in a car to the homes of the various conscription officials, where he serenaded them, playing "The Star Spangled Banner," and national anthems of other Entente nations, on an accordion. Later he distributed cigars among his friends.

Conscription officials contrasted his spirit with the attitude shown by some other men of draft age.

#### Sprains And Strains Relieved.

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's Liniment does not stain the skin or clog the pores like mussy plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well-known remedy handy. For the pains of gripe and following strenuous work, it gives quick relief. At all druggists, 25 cents.

#### Very Farsighted.

"Dorklus is a wonder."

"Yes, he's a farsighted chap. What has he done now?"

"He's gone and patented a carburetor that will burn air and has it all ready in case the supply of gasoline should give out."—Everybody's Magazine.

#### Preparedness.

"And what does your boy expect to be come when he leaves college?"

"A hanker, I believe."

"But has he had any training for it?"

"Well, my cheek books show that he's handled a lot of money since he's been in college."—Exchange.

## Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, . . . and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me . . . After 12 bottles, I am strong and well."

## THE NEW KENTUCKY --- TAX LAWS ---

There will be many changes in the Kentucky Tax Laws, which go into effect September 1st, and taxpayers should be deeply interested.

Farmers will be benefited by the lower State tax rate on Lands and Improvements from 55 to 40 cents on each \$100 valuation and on Live Stock from 55 to 10 cents for State purposes. Bonds, Stocks, Mortgages and Accounts will be exempt from local taxation; as will also Agricultural Implements; and Products grown within the year are exempt from all taxation. Money deposited in Bank will be taxed at only 10 cents on the \$100, instead of 55 as heretofore. This will result in a large saving to taxpayers, who have been listing their property at a fair valuation.

Merchants will have only State taxes to pay on their Notes and Accounts at the rate of 40 cents on each \$100 and 10 cents on Bank Deposits. Other property, such as Real Estate, Merchandise, etc., is subject to State tax rate of only 40 instead of 55 cents.

Manufacturers are exempted from local taxes on their Machinery, Raw Material and Product. Notes and Accounts and will be taxed for State purposes only on such property at 40 cents on the \$100 and 10 cents on Bank Deposits. On all other property the State tax is only 40 cents on each \$100 and the local taxes as fixed in the localities where their business is conducted.

Bonds, Stocks, Mortgages, Notes and Accounts are taxable for State purposes only at 40 cents on the \$100 and exempt from local taxation. The State tax on Real Estate, Household Goods, Merchandise, Vehicles and other property owned by individuals has been reduced from 55 to 40 cents; a reduction of 37 1/2 per cent.

Additional Revenue to justify the reduction and increase the State revenue is to come from Bonds, Stocks, Notes and Accounts; Mineral and Timber Rights and Royalties and by equalization of notoriously undervalued assessments, and as each class of property, no matter by whom owned, will be assessed and taxed uniformly, the advantage to taxpayers generally and the State at large will be very great.

The State needs more revenue to meet the present deficit, and the idea is to get more property to tax rather than to impose more taxes on property now paying more than its share, and under the new and more equitable laws this can be accomplished.

The State Tax Commission is going about the work in the right way to subject every kind of property to its fair share of taxation and correct the evils heretofore existing whereby many property owners paid more than their just due and others escaped entirely. The Commission is endowed with power to enforce the laws and bring the delinquents to a sense of their responsibility and obligation to the State, and every Taxpayer, Assessor and Supervisor should aid in securing for the State the successful operation of the new laws, which are fair and just to all.

Where accurate returns are made as of September 1st, the property owners will be immune from past omissions and delinquents may be proceeded against for ten years back, so there is every inducement to comply with such just and equitable laws, and as the principles involved are worked out there will be further reductions in the tax rates, and in time the entire exemption of land for State purposes, as in other States where the same laws are in practice.

vs. Notice.

Oda Hayercraft, et al., Defendants.

Pursuant to a judgment and order of sale of the Ohio Circuit Court rendered at its July term, 1917, for the purpose of paying the judgment in favor of the plaintiff against the defendants in the sum of \$112.22, with interest thereon at the rate of 6 per cent per annum from September 25, 1914, until paid and for the purpose of paying the cost of the above styled action, together with the cost of this sale, I will offer for sale at public auction to the highest and best bidder at the court house door in Hartford, Ky., on Monday, September 3rd, 1917, at about the hour of one o'clock p. m., upon a credit of 12 months, the following described property, to-wit:

One tract of land lying on Indian Camp Creek, in Ohio County, Ky., near Cromwell and described as follows:

Bounded on the north by the lands of Mrs. S. P. Ranney; on the west by the lands of Mrs. L. R. Shields and Indian Camp Creek; on the South and East by the lands of T. Q. Shields.

Being the same land conveyed to the defendant, Oda Hayercraft by the plaintiff, T. Q. Shields, and conveyed by Hayercraft and wife to Ida Stratton.

The purchaser will be required to execute bond with approved security immediately after sale, and a lien will be retained as further security.

This August 13th, 1917.

## REPUBLICAN COUNTY COMMITTEE MEETS

### MUCH ENTHUSIASM MANIFESTED—SPLENDID ORGANIZATION PERFECTED.

The Ohio County Republican Executive Committee met here last Saturday for the purpose of selecting a Campaign Committee to take charge of affairs in the campaign now on for the election of county officials. The meeting drew quite a large number from various sections, several of the late defeated candidates being present, as well as practically all of the successful ones.  
The meeting was called to order by Chairman E. G. Barrass and after a statement as to objects of the meeting the body got down to work. Among other things done, upon motion and unanimous vote, the chair appointed a committee of three to confer with the candidates and report as to their wishes in the matter of selecting a campaign committee. The chair appointed T. B. Frymire, J. E. Miller and M. L. Heavrin to represent the committee.  
After a conference of some length with all of the candidates the committee reported that the candidates had unanimously agreed upon the following committee to have full charge of the campaign: E. G. Barrass, Chairman; C. O. Hunter, Secretary; Jno. C. Mason, J. H. Thomas, R. B. Martin, G. A. Ralph, Geo. M. Johnson, T. W. Wallace and Frank Black.  
There is no doubt that the above committee is one of the best, if not the very best every placed in charge of an Ohio county campaign and with proper assistance from each and all of the candidates, a perfect organization is assured, which means an old time majority for the boys on November the 6th.

### A Lincoln Story.

On a certain third Lincoln appeared against his friend, Judge Logan. It was a suit between two farmers who had had a disagreement over a horse trade. On the day of the trial, Mr. Logan, having bought a new shirt open in the back with a huge standing collar, dressed himself in extreme haste and put on the shirt with the bosom at the back, a linen coat concealing the blunder. He dazed the jury with his "horse" knowledge; and as the day was sultry, he took off his coat and "summed up" in his shirt sleeves. Lincoln, sitting behind him, took in the situation, and when his turn came, he said:  
"Gentlemen, Mr. Logan has been trying to make you believe he knows more about a horse than those honest old farmers who are witnesses. Now, gentlemen, I submit to you" (here he lifted Logan out of his chair and turned him with his back to the jury and the crowd, at the same time tapping up the enormous standing collar), "what dependence can you place on his horse knowledge when he has not sense enough to put on his shirt?"  
Roars of laughter followed, and the jury promptly gave the verdict to Lincoln.—Youth's Companion.

### NARROWS.

Aug. 22.—The Ohio County Baptist Association met here Wednesday and Thursday of last week with about seventy delegates and several hundred visitors in attendance. Rain interfered with the attendance of visitors on the second day. Much interest was manifested in the Association work and it was said to have been one of the best associations ever held in the county.

The corn and tobacco crops here are in line condition, and the corn yield will double that of any recent year.

Mr. Oscar Shultz is building a three thousand dollar residence on his farm near here.

Mr. Lawrence Daniel will begin soon the erection of a nice residence on his farm south of the river.

Mr. and Mrs. Jas. L. Brashear spent last week with Mrs. Brashear's parents, Mr. and Mrs. J. H. Thomas. Mr. and Mrs. R. K. Bean are visiting Mrs. Bean's parents in Butler county.

After a visit of several weeks with friends here, Miss Dimple Kuykendoll returned to her home in Owensboro Sunday.

Miss Marguerite Renfrow will leave early in September for Hazard where she will enter school under the tutelage of her aunt, Miss Elie Duke, and Miss Arlie Thomas will go to Louisville where she will attend St. Mary Magdalene's parochial school.

Mr. Emmet Willis, of Chicago, spent Saturday night and Sunday with his parents here.

### TAFKY.

Aug. 20.—The singing at Union Grove is progressing nicely under the instructions of Melvin Bartlett. They have ordered new books which will be here in a few days.

Quite a number met at Clear Run church Saturday and cleared off the church grounds, graveyard and did some cleaning on the church.

Schools are progressing nicely at Mt. Morrin and Clear Run under the instructions of Mrs. James Hamilton and Mrs. Ira D. Funk, respectively.

Little Miss Beulah Gaines, who has recently lost her mother, came here Thursday from Arkansas to make her home with her sister, Mrs. Clyde Funk. She was accompanied by her brother, Charlie Gaines.

Several from here attended the Baptist Association at Narrows.

Mr. C. T. Funk was the guest of his mother Saturday night.

Mrs. Mona Sharp and children, of Pleasant Ridge, are the guests of Clarence Patton.

Mrs. Bettie Leach, of Caneyville, spent last week with her mother, Mrs. Nancy Plummer.

Miss Norine Stevens, of Taylor Mines, is visiting friends at this place and attending meeting, which is progressing nicely.

Mr. Tom Johnson lost a horse Tuesday night.

Miss Lova Parks spent Tuesday night with Miss Winona Taylor.

Misses Ray Miller, of Zion, and Gladys Likens, of Beaver Dam, spent Saturday night, Sunday and Sunday night with Mr. E. P. Sanderfer and family.

## JOHN T. MOORE NAMED CASHIER

### FORMER HARTFORD MAN TO BE CASHIER OF FEDERAL RESERVE BANK.

Mr. John T. Moore has been elected as cashier of the Louisville branch of the Federal Reserve Bank of St. Louis. Mr. Moore is widely known in this section, having spent his whole life here from whence he removed to Elizabethtown, some three years ago, to accept the position of Secretary-Treasurer for Bond Bros., the largest dealers in timber, perhaps in this part of the country. For twenty-three years Mr. Moore was connected with the Bank of Hartford, finally resigning as its cashier on account of being rather run down in health, due to long years of close confinement. Mr. Moore is a man of exceptional abilities and we join his many friends, not only in extending congratulations to Mr. Moore, but to those who secured his services as well.

### Royal Arch Masons Meet.

Keystone Chapter No. 110, R. A. M., at a regular convocation held here last Saturday, conferred all the degrees of caputular Masonry upon a class of seven. The local Chapter was favored by the presence of Past Grand High Priest, Col. David W. Gray, Deputy G. H. P., Isaac T. Woodson and Richard Deitzman, of Louisville, and District Deputy G. H. P., Jesse H. Whitworth, of Hardinsburg. The Chapter will confer the degree of M. M. at its next convocation. The meeting held Saturday was a splendid one, the work done was perhaps the best ever put on here. An elegant dinner was served the chapter and candidates, by Mrs. Foster, at 7 p. m.

### The Thirty Thousand Campaign.

The campaign for \$30,000 for school equipment for Kentucky's 30,000 illiterate soldiers is still in progress in a few counties, and the results cannot be determined until all have finished and reported. The Ninth Congressional District, of which J. W. M. Stewart, of Ashland, is Commander, is in the lead having turned in \$1,650 on its apportionment. Mason, Boyd, Carroll and Marion are counties that have over-subscribed. The largest single contribution, \$100.00, was from Mr. Theodore Ahrens, a Cleveland, Ohio, man, who has a branch business in Kentucky, Ahrens & Ott, of Louisville.

### Road Work Going On.

Very gratifying reports are coming in from all over the county that much good work is being done upon the public roads. All eight of the county road graders are reported busy, and many roads are being worked that have not had any thing done on them for two years before. The season for road working is at its best right now, and overseers all over the county are taking advantage of it.

Mrs. John T. Moore and daughters, Misses Mary Ellen and Isabel, of Elizabethtown; Miss Lula Riley, of Owensboro; Mrs. M. J. Ross and Miss Ruth Riley, city, were guests of Mrs. S. J. Wedding Thursday.

### TAXPAYERS NOTICE.

Tax bills for State and County Levy for the year 1917 have been certified to me for collection, by the proper authorities. Please call and get your receipt at the first opportunity. The earlier you settle the better it will be for all concerned. The State and County are in urgent need of finances to stop interest payments. Yours very truly, S. O. KEOWN, Sheriff of Ohio County.
